to come.
A friend,
Ann King

Charles
You are getting nicer
every day. Keep going.
I have enjoyed hearing
you give those reports
about model planes and
that book you read.

Charles
You are a very
sweet and nice person.
You are kind of nice
to me. I don't get it
that. I don't get it
of fun. Don't you get it
are the "Don't you get it"
is all over because you
are giving me a bad
time. I don't like it
Lots of love

1958

The members of the annual staff have made this annual for you, the students of Steele High School. We made it with one purpose in mind---to give you something that you will treasure in years to come.

When you try to recall some incident that happened in 1958, this book will make the memory clearer. It will bring back memories that would have ordinarily been forgotten in the long course of time.

Our sweat, mixed with love for Steele High, has made this annual. We sincerely hope that our many efforts to make a good yearbook will be rewarded by your appreciation.

We present to you, the 1958 Bulldog.

THE STAFF

Editor-in-Chief:	Margaret Cooke--10	Reporters:	Beverly Ketchum ---- 4
Ass't Editors:	Glenda Moss----- 3		Doris Hicks----- 2
	Daphna Howe-----13		Frances Ferrell----- 1
Sponsor-Teacher:	Mrs. Alma Eggert-9		Gloria Stewart----- 6
			Carolyn King-----12
			Ruth Ann Davis----- 7
			Patty Howell-----5
			Marianna Weaver----11
			Rebecca Ridge----- 8

Two boys, Leo Dillard and David Guthrie, were in the class during the first semester, but moved to another school. They are not pictured here, but may be seen in Senior class pictures.

The 1958 edition of "The Bulldog", has been edited by a small group known as the Publications Class. We hope you enjoy this annual. This is how you look as a student of Steele School in 1958. We have tried to include everything that has happened this year in the annual. The Publications Class has put in many hours of thinking, planning, and just plain working in order to be able to present you with an annual that you would be proud of in all the years to come.

When we first started working on the annual, it was a new experience in the editorial field. We began the year studying principles of journalism and copy writing. We have had many projects this year. Among them was publishing the school paper, "The Growl". Each member of the class was responsible for one page of the paper. We have twelve members and as you can see, we usually had a good-sized paper. We managed to publish a paper almost every month.

We also had a weekly column in the "Steele Enterprise", "The Bulldog Growsl." We saved all of our columns when they were published, and put them in our scrapbook. We bought the scrapbook and a paper cutter for our department with the money we made from the sale of our school paper.

DEDICATION

To the boys, former alumni and students of Steele Schools, who so nobly and unselfishly gave their lives or several years of their lives, in the service of our country, we humbly dedicate this our 1958 edition of The Bulldog. We realize that if it were not for them and the other thousands like them all over the United States, we could not and probably would not be enjoying the many blessings of liberty for which our forefathers also nobly fought and died.

We are proud of every one of them and shall never forget to be grateful for their sacrifice.

THE PARADE OF STATES

Mrs. Morrison's Sixth Grade Social Studies Class began a unit of study about the United States. After a thorough study in the classroom of each group of states; the children showed much interest and used their initiative in planning individual projects.

Each child prepared reports on his chosen state, bringing in interesting ideas from his own experiences and research readings. As interest grew, the group decided to illustrate the information gained by building original floats for the "Parade of States".

These floats were built outside class or in overtime periods and each proved very informative. Correlation of creative arts and language arts culminated in a remarkable display of miniature floats, depicting various phases of the social, economic, industrial, and cultural life as lived in these United States.
